

IEP Online™

IEP Online empowers educators to develop and manage individualized education programs (IEPs) more effectively to better serve every student.

IEP Online is a comprehensive special education management solution from Public Consulting Group (PCG) which can help your school or district quickly create and manage content-rich IEPs while meeting all state and federal requirements and reporting needs. PCG is the largest provider of IEP solutions in North America today; 20 percent of all IEPs in the US are created using one of PCG's IEP solutions, which include IEP Online, EDPlan™, and GoalView. Our team has been providing schools with IEP software for nearly 25 years.

Features and Benefits

IEP Online is an intuitive special education management solution that enables educators to position students for success. Features and benefits include

- ✔ **Comprehensive documentation process**
All of our IEP Online modules provide a comprehensive process to document a student's progress.
- ✔ **Compliant framework**
By offering a framework that complies with both federal and state requirements, IEP Online gives teachers the freedom to focus on the development of educational programs for their students.
- ✔ **User-friendly, easy-to-use interface**
Aesthetically pleasing and easy to navigate, our interface includes user-friendly web-based graphics, icons, and tools, and is accessible from any web browser as well as mobile devices.
- ✔ **Training and support**
IEP Online offers a variety of vehicles for training and support, including an online Help Desk, to ensure that school districts are getting the maximum benefit from the solution.
- ✔ **Quick and easy implementation**
Our implementation process will have you up and running within weeks of purchase. IEP Online supports both hosted and self-hosted installations.
- ✔ **Full product offering**
All components of this comprehensive and integrated special education management solution are accessible through PCG's secure, web-based dashboard.
- ✔ **User support groups**
IEP Online is continually evolving to stay on the leading edge of current educational trends. We engage our customers in regular meetings to hear feedback, insights, and ideas for product enhancements.

IEP Online helps schools and districts

Enhance decision-making capabilities.

IEP Online not only tracks data, it also helps teachers define the decisions they are making about their students. Educational planning is based on the data-driven entries and can change an opinion to a decision.

Increase compliance.

IEP Online follows federal and state guidelines and produces compliant forms.

Streamline documentation.

The platform's online, comprehensive process allows teachers to spend less time on paperwork and more time with students.

Save time and money.

IEP Online delivers a paperless approach to special education management that reduces the cost and time spent managing paper.

To learn more about how IEP Online can improve your school or district's special education management process, contact us today.
